AVAILABLE FOR IMMEDIATE DELIVERY

Ascendant® 100' Tower

Maximized maneuverability, driveability, operability and serviceability.

This Ascendant® 100' Heavy-Duty Midmount Aerial Platform has an overall length of 42' 3" and reaches heights of 100' vertically and 93' horizontally. It outperforms with a 1,000 lb. tip load capacity, up to 20° below grade operation, and a below grade 50° scrub area. It's integrated ground pads allow for a RAPID 30-second set up - faster than any other aerial on the market.
