

Velocity™ Industrial Pumper

We asked firefighters to envision the ideal fire truck. Then we listened carefully. They told us about practical things that would make a truck easier to use. They identified space, storage, safety, maintenance and performance improvements. We wrote it all down and turned a team of engineers loose with one goal: Make it happen.

Stock No. 34006

FEATURES

- Chassis: Velocity Big Block
- Engine: Cummins X15, 605 HP
- Transmission: Allison 5th Gen 4000SP P, 6-speed, push button
- Front Axle: Oshkosh TAK-4, Non-drive, 24,000 lbs.
- Rear Axle: Meritor RS30-185, 33,500 lbs.
- Front Wheels: Alcoa Aluminum 22.5" x 13"
