

FIRE LINE

QUICK ATTACK

CANADA'S BEST VALUE IN LIGHT ATTACK WILDLAND APPARATUS

COMMERCIAL
EMERGENCY EQUIPMENT CO.

**THE MOST AFFORDABLE
CERTIFIED SOLUTION IN
THE TYPE 5/6 CATEGORY**

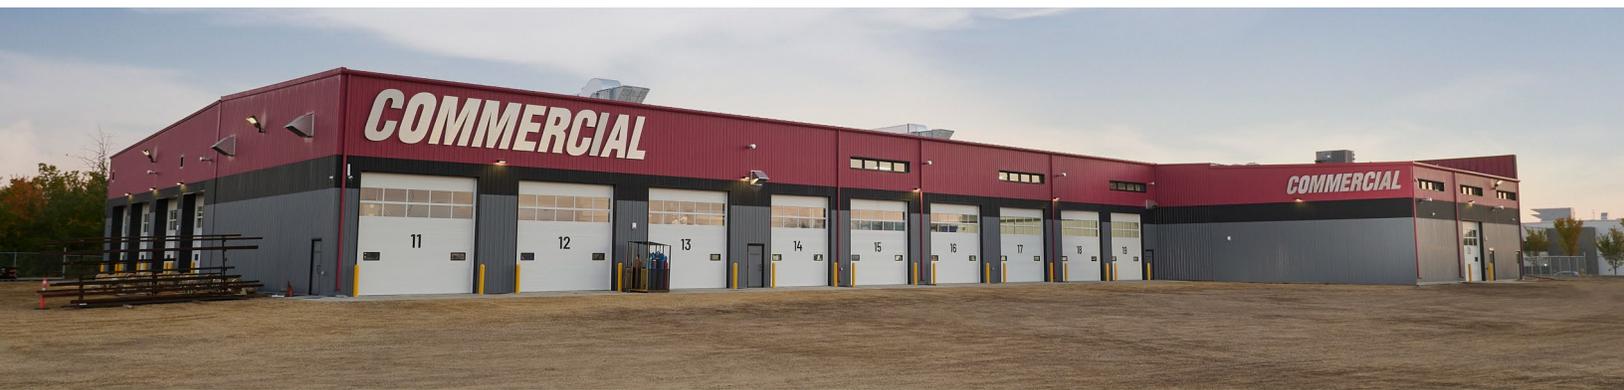

FIRELINE

The **FireLine Quick Attack series of vehicles**, Commercial Emergency Equipment's fully custom, in-house engineered and built Type 6 wildland apparatus have been deployed, tested, and validated in Canada's most demanding wildland, WUI, and backcountry environments. The FireLine Quick Attack has been universally praised for its capability, tight integration, value, and generous specification for its particular application. With an exceptionally low cost of entry, and the ability to be easily retooled and re-tasked for winter municipal operations, the FireLine is an excellent choice for municipalities that seek fleet versatility year-round.

COMMERCIAL EMERGENCY EQUIPMENT

Commercial Emergency Equipment, a part of the Commercial Group of Companies, is Canada's expert supplier of emergency equipment. Commercial Emergency Equipment is the authorized dealer for Pierce, BME Fire Trucks, Maximetal, and Oshkosh Airport Products apparatus from Ontario to BC including all Canadian Territories. With a 75-year history, 350+ employees across Canada in 13 total locations, and 250,000+ sq. ft. of combined production and service space, Commercial has an unmatched parts, service, training, testing, and support network for emergency apparatus. Commercial provides its customers access to industry-leading service and support including mobile EVT's, pump testing, annual inspections and maintenance, a significant stock of on-the-shelf parts, 24/7 emergency service and more.
